Grammar_Check

Grammar and Language Quality Report =======================================

Spelling

* No spelling mistakes were found in the given assignment.

Punctuation

* Missing comma after "Error" to improve sentence clarity and readability: * Original: "Error: Expected UploadedFile object, but got bytes." * Suggested: "Error: Expected UploadedFile object, but got bytes." * However, the comma is not necessary in this case as it is a list of items.

Sentence Structure

* The sentence is simple and straightforward, but it could be improved for better clarity and readability: * Original: "Error: Expected UploadedFile object, but got bytes." * Suggested: "An error occurred: expected an UploadedFile object, but received bytes instead." * Alternatively, you could use a more formal tone: * Suggested: "The expected object type is an UploadedFile, but the received object is of type bytes."

Language Clarity

* The language is clear and concise, but it could be improved for better readability: * Original: "Error: Expected UploadedFile object, but got bytes." * Suggested: "The error message indicates that an UploadedFile object was expected, but a bytes object was received instead." * Alternatively, you could use a more technical tone: * Suggested: "The expected object type is an instance of UploadedFile, but the actual object is an instance of bytes."

Grammar Errors

* None found.

Suggestions for Improvement

* Use a more formal tone in the error message to improve clarity and readability. * Consider adding more context or information about the expected object type and the actual object received. * Use a consistent tone throughout the error message to improve coherence and readability.
